NEWS RELEASE

Fraser's Centrepoint Trust 2Q07 Results

- 2Q07 DPU of 1.67 cents, up 14.4% from IPO forecast of 1.46 cents and up 8.6% from the previous quarter
- Track record of strong organic growth continues

Singapore, 23 April 2007 – Fraser's Centrepoint Asset Management Ltd. ("FCAM"), the Manager of Fraser's Centrepoint Trust ("FCT"), is pleased to announce that FCT's distributable income for second quarter 2007 (period 1 January to 31 March 2007), was S\$10.3 million. This translates to a distribution per unit ("DPU") of 1.67 cents, an increase of 14.4% compared to the IPO forecast.

Overview of FCT 2Q07 Financial Results (period 1 Jan – 31 Mar 07)	Actual	Forecast	Variance	
			Amount	%
Gross Revenue (S\$'000)	19,591	18,857	734	3.9%
Net Property Income (S\$'000)	13,409	12,524	885	7.1%
Distributable Income (S\$'000)	10,290	9,083	1,207	13.3%
Distribution per Unit (cents) - For the period 1 Jan to 31 Mar 07	1.67	1.46	0.21	14.4%

FCT's stronger performance was primarily due to higher turnover rent during the festive period. Historically, increased shopper activity during the festive period has provided a seasonal boost to turnover rent during the January to March quarter. On average, turnover rent for the January to March quarter has been three-fold higher than that of a normal quarter.

High Portfolio Occupancy Rates On the Back of Rising Demand

The weighted average occupancy rate of FCT's portfolio was 93.6% as at 31 March 2007, with Causeway Point and Northpoint achieving occupancy rates of 99.9% and 100.0% respectively. Anchorpoint's occupancy rate was 42.9% pursuant to the planned exercise to vacate part of the mall in preparation for asset enhancement works.

Strong Rental Reversions

FCT continued to make strong rental reversions during the quarter with new and renewed leases recording an increase of 10% above preceding rental rates. The increase of 10% follows a 9% increase in the previous quarter demonstrating the trend for strong and sustainable rents for FCT's malls.

Casual Leasing: A Growing Source of Income

Income from casual leasing have improved with the focus on maximizing common areas and increased demand for atrium, push carts and advertising space leasing. Income from push carts and atrium leasing at Causeway Point and Northpoint increased 11% and 6% respectively, from fourth quarter 2006 to second quarter 2007.

Asset Enhancement Initiatives

FCT's first asset enhancement initiative will reposition Anchorpoint as a village-mall concept with a wider range of fashion and F&B outlets. Frasers Centrepoint Limited, the Sponsor of FCT, has committed up to S\$1.3 million in income support for the period of Anchorpoint's asset enhancement. FCT is in the process of vacating sections of Anchorpoint as part of the planned asset enhancement which will commence in May 2007 and complete in November 2007. The first draw-down of S\$197,957 from the S\$1.3 million income support commenced during the current quarter.

"We are very pleased to once again deliver a DPU above the forecast. FCT continues to demonstrate a track record of strong and steady organic growth exceeding quarterly projections. On top of our strong underlying operating performance, FCT's acquisition pipeline now includes four identified assets: Northpoint 2, YewTee Point, Bedok Mall and The Centrepoint. It is our plan to start acquiring Northpoint 2 and YewTee Mall by the fourth quarter of 2008," said Mr Christopher Tang, Chief Executive Officer, Frasers Centrepoint Asset Management Ltd., the Manager of Frasers Centrepoint Trust.
