Footnotes:
NM – Not meaningful
(a) Included the results of BPT which was acquired on 23 September 2011.
(b) This relates to unrealised differences arising from fair valuation of interest rate swaps for the hedging of interest rate relating to S$301 million of the mortgage loans. This is a non-cash item and has no impact on distributable income.
(c) Being net income received from investment in H-REIT during the period.
Footnotes:

(d) The result for H-REIT was equity accounted for at the Group level, net of 10% (2011: 10%) withholding tax in Malaysia, and comprises the following:
   (i) Difference in the actual result subsequently reported, and the result previously estimated, in respect of the preceding quarter ended 30 June 2012; and
   (ii) An estimate of H-REIT’s result for the quarter ended 30 September 2012, based on H-REIT’s actual result for the quarter ended 30 June 2012 (the latest publicly available result).

(e) The Properties were valued at S$1.816 billion by Jones Lang LaSalle Property Consultants Pte Ltd, Knight Frank Pte Ltd and Colliers International Consultancy & Valuation (Singapore) Pte Ltd (the “Valuers”) on 30 September 2012 giving rise to a revaluation surplus of S$102.0 million and adjusted for amortization of rent incentives of S$1.3 million. The Valuers have used the direct comparison, investment and discounted cash flows methods in determining the fair values of the Properties. Valuation is required to be conducted annually in compliance with the Code on Collective Investment Schemes.

(f) No provision has been made for tax as it is assumed that 100% of the taxable income available for distribution to unitholders in the current financial year will be distributed. The Tax Ruling grants tax transparency to FCT on its taxable income that is distributed to unitholders such that FCT would not be taxed on such taxable income.

(g) The result for H-REIT was equity accounted at Group level, net of 10% (2011: 10%) withholding tax in Malaysia, and comprises the following:
   (i) The actual result for the nine months ended 30 June 2012; and
   (ii) An estimate of H-REIT’s result for the quarter ended 30 September 2012, based on H-REIT’s actual result for the quarter ended 30 June 2012 (the latest publicly available result).

Financial Statements Announcement
For financial year ended 30 September 2012

Footnotes:

(a) The Properties are stated at valuation as at 30 September 2012 and 30 September 2011 as assessed by independent professional valuers.

(b) This relates to the cost of investment in a wholly-owned subsidiary, FCT MTN Pte. Ltd. (“FCT MTN”), which amounts to S$2.

(c) This relates to 124.9 million (30 September 11: 99.4 million) units held in H-REIT. The Group’s investment in H-REIT is stated at cost, adjusted for translation differences, share of associate’s results (net of withholding tax in Malaysia), less distributions received and impairment loss. The market value of FCT’s investment in H-REIT based on its last traded unit price of RM 1.40 on Bursa Malaysia Securities Berhad on 30 September 2012 was S$69.9 million (translated at S$1 = RM 2.5000) (30 September 2011: S$51.0 million).

(d) The increase is partly due to front end fees paid for the secured five-year term loan of S$70 million, S$70 million of 2.30% Fixed Rate Notes due 2015 (the “S$70 million FRN”) and S$30 million of 2.85% Fixed Rate Notes due 2017 (the “S$30 million FRN”). The amount has been partially offset by amortisation. The increase is also due to the refundable unallotted excess rights subscription money in H-REIT.

(e) Included in the 30 September 2012 amount is a payable relating to the fair value of interest rate swaps of S$11.9 million (30 September 2011: S$12.2 million). Changes to the fair value are recognised in the Statement of Total Return.

(f) Movement in borrowings under current liabilities was due to:
- S$10 million short term unsecured bank borrowings from Citibank repaid in November 2011;
- In December 2011, FCT entered into a facility agreement with DBS Bank Ltd for a secured five-year term loan of S$70 million (the “S$70m Secured Term Loan”), S$57.3 million and S$12.7 million had been drawn to refinance the unsecured bank borrowings from DBS Bank in December 2011 and January 2012 respectively;
- S$75 million of 4.80% Fixed Rate Notes due 2012 and repaid in June 2012;
- S$3 million short term unsecured bank borrowings were drawn in September 2012 for working capital; and
- S$55 million of 2.83% Fixed Rate Notes due 2013 (the “S$55 million FRN”) issued under a S$500 million Multicurrency Medium Term Note Programme established on 7 May 2009 has been reclassified from non-current liabilities to current liabilities.

(g) Movement in borrowings under non-current liabilities was due to:
- S$70.0 million drawn from the S$70m Secured Term Loan;
- Reclassification of S$55 million FRN due 2013; and
- On 12 June 2012, FCT MTN issued S$70 million FRN and S$30 million FRN through the MTN Programme, which was on-lent to FCT to re-finance existing short-term borrowings as well as to finance the investments, asset enhancement works initiated and general working capital purposes.

(h) Please refer to the Statement of Changes in Unitholders’ Funds as shown in 1(d)(i) on page 10 for details.
**Details of borrowings and collateral:**

1. Short term unsecured facilities drawn from:
   - S$55 million FRN; and
   - S$3 million from DBS Bank for working capital.

2. Short term unsecured facilities drawn from:
   - S$10 million from Citibank to finance additions and alteration work;
   - S$70 million from DBS Bank to part finance the acquisition of BPT; and
   - S$75 million of 4.80% Fixed Rate Notes due 2012.

3. Long term secured facilities drawn from:
   - S$264 million secured five-year term loan from DBS Bank Ltd, Oversea-Chinese Banking Corporation Limited and Standard Chartered Bank (the "S$264m Secured Term Loan"); and
   - S$70 million drawn from the S$70m Secured Term Loan.

   The S$264m Secured Term Loan is secured on the following:
   - a mortgage over Northpoint;
   - an assignment of the rights, benefits, title and interest of FCT in, under and arising out of the insurances effected in respect of Northpoint;

8 A review of the performance

4Q Sep 2012 vs 4Q Sep 2011

Gross revenue for the quarter ended 30 September 2012 was S$39.0 million, an increase of S$4.9 million or 14.3% over the corresponding period last year. The increase was mainly contributed by:
(i) the improvement in revenue generated from Causeway Point upon the completion of the significant portion of its addition and alteration works; and
(ii) the addition of BPT to the portfolio on 23 September 2011.

The portfolio occupancy rate of the Properties as at 30 September 2012 was 93.6%, which was lower than 95.2% as at 30 September 2011.

Property expenses for the quarter ended 30 September 2012 totalled S$10.3 million, an increase of S$1.4 million or 16.2% compared to the corresponding period last year. Increase was mainly due to:
(i) higher property manager’s fee arising from the improvement in revenue and net property income; 
(ii) higher property tax and other expenses as there was write-back of provisions in the quarter ended 30 September 2011; and
(iii) the addition of BPT to the portfolio on 23 September 2011.

Net property income for the quarter was S$28.7 million, which was S$3.5 million or 13.7% higher than the corresponding period last year.

Non-property expenses net of interest income was S$0.3 million higher than the corresponding period last year mainly due to higher Manager’s management fees from improvement in net property income and the increase in total assets, which is partially offset by lower trust expenses.

Total return included:
(i) unrealised gain of S$0.7 million arising from fair valuation of interest rate swaps for the hedging of interest rate in respect of S$301 million of the mortgage loans;
(ii) surplus on revaluation of investment properties of S$100.8 million; and
(iii) share of associate’s results from operations of S$1.0 million.

Income available for distribution for the current quarter was S$21.1 million, which was S$2.8 million higher than the corresponding period in the preceding financial year.
8  A review of the performance (cont’d)

4Q Sep 2012 vs 3Q Jun 2012

Gross revenue for the quarter ended 30 September 2012 was S$39.0 million, an increase of S$3.5 million or 9.8% over the quarter ended 30 June 2012. The increase was mainly contributed by the improvement in revenue generated from Causeway Point as tenants progressively commenced their business at the refurbished sections at Causeway Point during the quarter.

Property expenses for the quarter ended 30 September 2012 totaled S$10.3 million, a decrease of S$0.6 million or 5.2% lower than quarter ended 30 June 2012. The decrease was mainly due to write-back of provisions for property tax.

Net property income for the quarter was S$28.7 million, which was S$4.1 million or 16.5% higher than the quarter ended 30 June 2012.

Non-property expenses net of interest income was S$0.9 million higher than the quarter ended 30 June 2012 due to higher borrowing costs and higher Manager’s management fees in line with the increase in portfolio net property income and total asset, which is partially offset by lower trust expenses.

Income available for distribution for the current quarter was S$21.1 million, which was S$0.9 million higher than the quarter ended 30 June 2012.

YTD Sep 2012 vs YTD Sep 2011

Gross revenue for the year ended 30 September 2012 was S$147.2 million, an increase of S$29.3 million or 24.9% over the corresponding period last year. The increase was mainly contributed by the addition of BPT to the portfolio on 23 September 2011 and increase in contribution from Causeway Point upon the completion of the significant portion of its addition and alteration works. The other properties also achieved higher revenue against the same period last year.

FCT’s property portfolio continued to achieve positive rental reversions during the year. Rentals from renewal and replacement leases from the Properties commencing during the period, showed an increase in average of 12.1% over the expiring leases.

Property expenses for the year ended 30 September 2012 totaled S$42.8 million, an increase of S$7.5 million or 21.3% from the corresponding period last year. Increase was mainly due to:

(i) higher property manager’s fee arising from the improvement in revenue and net property income;
(ii) higher property tax and other expenses as there was write-back of provisions in the corresponding period last year; and
(iii) the addition of BPT to the portfolio on 23 September 2011.

Hence, net property income was S$104.4 million, which was S$21.8 million or 26.4% higher than the corresponding period last year.

Non-property expenses net of interest income was S$0.8 million higher than the corresponding period last year due to higher Manager’s management fees in line with the increase in portfolio net property income and total asset, which is partially offset by lower borrowing costs.

Total return included:

(i) unrealised gain of S$0.4 million arising from fair valuation of interest rate swaps for the hedging of interest rate in respect of S$301 million of the mortgage loans;
(ii) surplus on revaluation of investment properties of S$100.8 million; and
(iii) share of associate’s results from operations of S$4.4 million and from revaluation surplus of S$6.1 million.

Income available for distribution for the year ended 30 September 2012 was S$82.3 million, which was S$18.0 million higher compared to the corresponding period in the preceding financial year, mainly due to contribution from BPT.

Footnotes:
(a) Refers to the Profit Forecast as set out in Appendix B of the Circular dated 24 August 2011 that was issued in connection with the proposed acquisition of BPT by FCT. The Profit Forecast had assumed that the acquisition of BPT would be part financed by the issuance of 47.5 million new units at an illustrative issue price of S$1.38 per unit.
(b) Assuming 100% of the income currently available for distribution is distributed, in accordance with assumption adopted in the Profit Forecast as set out in Appendix B of the Circular dated 24 August 2011.
(c) Based on the number of issued and issuable units as at 30 September 2012 of 823,522,544.

9(d) A review of the performance (Actual vs Forecast)

Gross revenue for the year ended 30 September 2012 was S$147.2 million, an increase of S$5.9 million or 4.2% over the forecast for the same period. The higher revenue was mainly due to the rental rates achieved for new and renewed leases being higher than the forecast.

Property expenses at S$42.8 million were S$3.7 million or 8.0% lower than the forecast for the same period, mainly due to lower repair and replacement expenses and professional fees.

Consequently, net property income was S$104.4 million, which was S$9.6 million or 10.2% higher than the forecast for the same period.

Non-property expenses net of interest income were S$1.8 million lower than the forecast for the same period mainly due to savings in borrowings costs due to lower interest rate; partially offset by the higher Manager’s management fees arising from improvement in net property income and the increase in total assets arising from the surplus on revaluation of investment properties recognised during the financial year ended 30 September 2012.

Income available for distribution for the year ended 30 September 2012 was S$82.3 million, which was S$11.7 million higher than the forecast for the same period.

10 Commentary on the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Singapore’s economy continues to grow, albeit, at a slower pace. However, the global economic outlook remains uncertain. The Singapore retail market continues to be supported by domestic spending. It is expected that operating fundamentals of FCT’s well-located suburban malls remain stable.

The asset enhancement initiative at Causeway Point is progressing on schedule. This has provided significant improvement in the net property income of the mall.
