Note:

1. Quarter 4Q06 refers to the period 5 July 2006 to 30 September 2006
2. Being net distributions received from investment in H-REIT during the period
3. In 4Q08, 4Q09 & 4Q10, FCT paid out the income available for distribution to unitholders that was retained earlier in the year.
4. The result of Hektar REIT is equity accounted for based on its result for the preceding quarter, net of 10% withholding tax. Amount includes difference in the actual result and the result equity accounted for in the preceding quarter.
5. Taxation relates to deferred tax imputed on the surplus on revaluation of the Properties. Current taxation expense is nil as it is assumed that 100% of the taxable income available for distribution to unitholders will be distributed.
6. The Tax Ruling grants tax transparency to FCT on its taxable income that is distributed to unitholders such that FCT would not be taxed on such taxable income.
7. Any discrepancies between individual amounts and total are due to rounding
