FCT's 4Q13 DPU up 10% to new-high

- 4Q13 DPU of 2.98¢, brings full-year DPU to 10.93¢, both all-time highs
- NAV per unit up 16% to \$1.77 on revaluation surplus from its portfolio properties
- FCT to continue to pursue growth through both organic and acquisitive means

Singapore, 21 October 2013 – Frasers Centrepoint Asset Management Ltd. (“FCAM” or the “Manager”), the manager of Frasers Centrepoint Trust (“FCT” or the “Trust”), is pleased to announce distribution per unit (“DPU”) of 2.98 cents for the period from 1 July to 30 September 2013 (“4Q13”), an increase of 10% compared to the same period a year ago. This brings the total DPU for the financial year ended 30 September 2013 (“FY2013”) to a new-high of 10.93 cents. This is the seventh year of consecutive DPU growth since FCT’s listing.

FY2013 gross revenue grew 7.3% to \$158.0 million on higher contributions from Causeway Point and Northpoint from better rental rates achieved for new and renewed leases during the year. Similarly, FY2013 net property income grew 6.9% to \$111.6 million. The total distribution to unitholders for FY2013 was \$90.1 million, an increase of 9.5% compared to FY2012.

Total assets as at 30 September 2013 stood at \$2.13 billion, an increase of 10.9% from \$1.92 billion a year ago. This resulted from the recognition of \$195.7 million from net surplus on revaluation of FCT’s properties. All five properties recorded higher values in the valuations conducted by independent valuers¹ on 30 September 2013. Correspondingly, the net asset value per unit of FCT grew 15.7% to \$1.77 from \$1.53 a year ago.

The increase in total assets of FCT also led to a 2.5%-point improvement in its gearing level to 27.6% as at 30 September 2013, as total borrowings grew at a slower pace. The average cost of borrowing in 4Q13 remained stable at 2.73% and the weighted average debt maturity stood at 2.85 years as at 30 September 2013. 94% of FCT’s borrowings are on fixed interest rate or have been hedged via interest rate swaps.

¹ The independent valuers were Jones Lang LaSelle Property Consultants Pte Ltd, Knight Frank Pte Ltd and Colliers International Consultancy & Valuation (Singapore) Pte Ltd.

Average portfolio occupancy remained high at 98.4% as at 30 September 2013. During 4Q13, 49 leases accounting for 36,351 square feet or 4.1% of FCT's total net lettable area were renewed with a 10.8% rental reversion over preceding leases which were contracted typically 3 years ago. The average rental reversion for the financial year 2013 was 7.7%.

Dr Chew Tuan Chiong, Chief Executive Officer of FCAM, said, "FCT has continued to deliver steady performance and consistent growth, achieving new-highs for its income, NAV and DPU for seven consecutive years. We are optimistic that FCT can continue to benefit from positive macro-economic trends in Singapore such as growth in retail sales, growing household income, sustained low unemployment rate and growing population in suburban estates especially in Woodlands and Yishun where we have strong presence.

Moving forward, we will continue to pursue our fundamental strategy of growth through both organic and acquisitive means, which have enabled us to hit new highs every year."
